Northeastern Illinois Regional Greenways and Trails Plan 2009 Update

A large number of proposed trails are conceptual; final alignments would be determined by the jurisdiction's planning and engineering processes. Greenways on the map do not imply specific widths, design characteristics, or management approaches. These should be determined through detailed planning for the individual greenways.

The Illinois Natural Areas Inventory Sites are current as of 2009. Illinois Nature Preserves are current as of 2009. Additional information can be obtained from the Illinois Department of Natural Resources, Natural Heritage Division at (217) 785-8774. McHenry County Natural Areas Inventory Sites are current as of 2005.

About CMAP

The Chicago Metropolitan Agency for Planning (CMAP) is the official comprehensive regional planning organization for the seven counties of northeastern Illinois. CMAP's innovative **GO TO 2040** planning campaign is developing and implementing strategies to address transportation, housing, economic development, open space, the environment, and other quality of life issues. See www.cmap.illinois.gov.
